10/3/16

RE: 1519 Main St.

Att: City Council
Hazardous Conditions

We read with interest of your decision to have property cleaned up at 811 Sixth Ave. We commend you.

May we please have this same directive apply to property at 1519 Main St. Neighbors and residents have asked this to be done with no results. Residents between Eighth and Eleventh sts., Norway st. and all residents of area are seeing their property values decline.

Tourists have remarked about the deplorable sight.

Emergency and Fire Dept. services would be unable to reach the rear of this property if necessary. Thus neighbors' properties on main st. + rear of property (Norway St.) would be taken down!

Commercial or Residential designations should not have such conditions facing them, see their property values decline, having to look at this property, face that property driving by.

Please, may all of Main St. be addressed, as attention is being given to entire city, as necessary, to clean up for its future.

Sincerely,

Leona R. Deyette
