RECOGNITION

The City hereby recognizes that the Union is the sole and exclusive representative of all positions covered in the bargaining unit certified by the New Hampshire PELRB in Case #A-0405 originally signed on January 10th, 1976 and as amended since for the purpose of bargaining with respect to wages, hours of work and working conditions. The Union unreservedly accepts and recognizes the necessity of the City to operate within its budget as set by the City Council.

ARTICLE I - GENERAL PURPOSE AND INTENT

- 1.1 The City of Berlin, hereinafter referred to as the City, and the covered departmental employees, hereinafter referred to as the Union, in order to increase general efficiency in the City, to maintain the existing harmonious relationship between the City and its employees and to promote the morale, equal rights, well-being and security of the City employees, the City and the Union hereby agree as follows:
- 1.2 Compliance with Public Employee Labor Relations Law. The City and the Union agree for themselves and for the purpose of this Contract to be bound by the provisions of New Hampshire RSA 273-A.
- 1.3 Public Employees. The City and the individual members of the Union are to regard themselves as public employees; and, as such, they are to be governed by the highest ideals of honor and integrity in all their public and personal relationships in order that they may merit the respect and confidence of the general public.

ARTICLE II - MANAGEMENT RIGHTS

- 2.1 The direction of Department operations and the determination of the methods and the means by which such operations are to be conducted shall be the function of Management. All rights and responsibilities not specifically modified by this agreement shall remain the function of Management in accordance with the provisions of RSA 273:1: XII.
- 2.2 It shall be the right of the Union, however, to present and process grievances of its members whose wages, working conditions or status of employment are changed as a result of Management's exercising the above mentioned rights, whenever such grievances exist.

ARTICLE III - UNION SHOP

- 3.1 Whenever re-employments are made, or the City hires new employees, including the covered positions at the Pollution Control Facility and excluding temporary employees, they shall within sixty (60) working days following completion of their probationary period, become members of Local #1444, by presenting to the City a proper authorization approved by the Union President for the collection of their dues.

ARTICLE IV - CHECK OFF

- 4.1 Upon an individually-written authorization by an employee and approved by the Union President, the City agrees to deduct from each employee so authorized a sum, as set by vote of the Union membership, each week for Union dues and to make remittance to the Union Treasurer monthly. However, if an employee has no check coming to him/her, or the check is not large enough to satisfy the assignment, then, and in that event, no collection will be made from said employee for that week. In no case will the City attempt to collect fines or assessments for the Union except regular weekly dues.
- 4.2 The Union agrees in return for itself and for its members that they will individually and

collectively perform loyal and efficient work and service and will use their influence and best efforts to promote and advance the interests of the taxpayers of Berlin.

- 4.3 It is further agreed that if the Union should increase its weekly dues payment by vote of its members that upon written authorization from the Union President said deductions shall be made in the amount of said certification. Notification from the Union of any dues changes shall be incorporated in this Agreement as an addendum thereto.

ARTICLE V - PROBATIONARY PERIOD

5.1 Employment Probationary Period

The first six months of employment for a new employee with the City in a position covered by the bargaining unit will be an employment probationary period. Probationary employees are not a part of the bargaining unit and are not covered by this Agreement. During the employment probationary period, the employee may be discharged at the sole discretion of the City without employee recourse to the grievance procedure or any other protection of this agreement. Prior to the end of this employment probationary period, a decision will be made solely by the City as to whether the employee will be employed or not beyond this six month employment probationary period. All employees who have successfully completed their probationary period shall be known as regular employees and the employment probationary time shall be considered part of their seniority time.

- 5.2 The City will provide a copy of this Agreement, including all amendments, to any employee who successfully completes the probationary period.

5.3 Promotional Probationary Period

In the event an employee moves, is moved or is promoted from one position in City employment to a position covered by the bargaining unit or from one bargaining unit position to another, he/she shall serve a 60 day promotional probationary period. In the latter case of a current bargaining unit member who moves to another bargaining unit position, the member shall have a 30 day period within which to return to their prior position. Other members who may have transferred or promoted to the vacancy created by the originating position change shall be bumped back to their prior positions accordingly. Nothing herein shall prohibit the City from filling positions on an interim basis including requiring an employee to temporarily remain in a position beyond 30 days until another member is selected but not to exceed 60 days. Prior to the end of this 60 day promotional probationary period, the employee shall be evaluated by the City to determine whether he/she is performing the job in a satisfactory manner. If the employee is not found to be performing satisfactorily in the new position as determined solely by the City, he/she will be placed back in the same classification and pay grade as he/she had obtained prior to promotion, providing such action does not violate another collective bargaining agreement.

ARTICLE VI - SENIORITY

- 6.1 Seniority is defined as the length of continuous service in the Department. The Public Works Department shall establish seniority lists and they shall be brought up to date on October 1st of each year and be immediately posted thereafter on the department bulletin boards in the various departments for a period of not less than thirty (30) days. A copy of said seniority list shall be mailed to the Secretary of Local #1444. Any objection to the seniority list as posted shall be

reported to the department within ten (10) days or it will stand approved.

- 6.2 Employees, hereinafter assigned by the City to work outside the bargaining unit of the Union described in the Agreement, shall retain their seniority while they are so assigned. No temporary or permanent demotions in supervisory positions will be made into the bargaining unit. No supervisory employee discharged for cause shall be transferred to the bargaining unit.
- 6.3 A person selected for promotion to a supervisory position from the bargaining unit shall retain his/her seniority rights as to this Agreement and the right to return to the unit for a period of six (6) months after promotion.
- 6.4 Seniority will continue for military and Union service for all covered employees.
- 6.5 It is understood that non-bargaining unit supervisors or professional personnel may, from time to time, in the course of their work, perform tasks normally performed by members of the bargaining unit. Such temporary work is specifically recognized and accepted by this agreement as long as such work does not displace a bargaining unit position(s).
- 6.6 Laborer Work Assignment:
In the Public Works Department, seniority will be a factor in the assignment of jobs lasting more than one day. For the first day of any laborer's job lasting more than one day, assignment may be made without regard to seniority. Thereafter, if a more senior laborer with equal or superior qualifications and skill requests assignment to an ongoing job held by a less senior laborer, such request shall not be unreasonably denied. Any such request must be made in writing to the Supervisor prior to the end of the first day to be considered.

ARTICLE VII - EQUIPMENT CLASSIFICATION,

QUALIFICATION & ASSIGNMENT

- 7.1 Equipment Classification
Within the Public Works Department portion of the bargaining unit, employees are all Laborers unless they are hired into or promoted to the regular positions of Garbage Packer, Recycler (2 positions), Street Sweeper, Vacuum Truck, Sewer Crew Leader, Paving Crew Leader, Mechanic, Welder, or Carpenter, or unless they become qualified to operate equipment in any of the Department's three equipment grades above the Labor grade (see Classifying Equipment Chart below). Promotion to the former regular positions shown in the second column of the below Classifying Equipment Chart is determined by the Department's review of the qualifications of applicants for these positions when there is a vacancy in one of these positions. Daily assignment for the latter equipment is determined by employee seniority equipment lists of assigned qualified employees and/or learners which are kept by the Department for each of the classifying pieces of equipment. However, employees who are already qualified for a piece of classifying equipment as of the date of the signing of this agreement, will be placed in the classifying equipment list in their current order regardless of seniority. Employees in regular positions shown in the second column of the below Equipment Classifying Chart, when not required to do their regular job, will qualify for classifying equipment in exactly the same manner as other employees in these grades.

Employees in Public Works positions from outside the grades shown in the Classifying Equipment Chart below may be temporarily assigned to any of the positions in such chart only after all other more senior qualified or Learner employees have been utilized, unless there has been a layoff or

reduction in force. The exception to this is the position of Carpenter. The Carpenter may be used as needed in these positions in accordance with seniority.

7.2 Equipment Learners

An employee may be assigned to or volunteer for learning to operate a classifying piece of mechanical equipment as indicated in the Classifying Equipment Chart below. Such an employee will be considered a Learner on that piece of equipment until such time as the employee is designated by the Department as qualified on that piece of equipment. Learners will be placed on the employee seniority equipment list in order of seniority. A Learner assigned to a piece of classifying equipment for the purpose of learning its operation will receive no increase in pay for the first 120 hours of operation of that equipment. Such Learner will, for the next 120 hours of learning to operate the equipment, be paid the full rate for the equipment he/she is operating.

Classifying Equipment Chart

Grade	Regular Positions	Classifying Equip.	Rate Designated Equipment
1 Labor		none	none
2 Equipment		6 wheel trucks, compressor, sidewalk tractor	All equipment to the left, plus auger, paint machine, sidewalk roller, curbing machine, pavement cutter, hot patch equipment, cemetery grave digging
3 Equipment	Garbage Packer, Recycler, Street Sweeper, Vacuum Truck, Sewer Crew	10 wheel trucks, large salt trucks,	All equipment to the left plus, vac-all, street sweeper, sewer jet, plow trucks without a wing *
4 Equipment	Sewer Crew Leader, Paving Crew Leader, Heavy Equipment Operator, Cemetery Operator	Front end loader, large dozer, grader, low bed, backhoe, plow truck with a wing	All equipment to the left

* if and when the City implements the use of plow trucks without a wing as a regular part of its snow fighting operations the "plow truck without a wing" category will be considered to be Classifying Equipment in Grade3.

7.3 Equipment Qualification

To become qualified on a particular piece of classifying equipment, a Learner must become qualified by the Department as indicated below within the 240 hour (not required to be consecutive) Learner's period. The Department may qualify a Learner it deems qualified at any time during the 240 hour learning period, but a Learner who does not achieve qualification by the Department within the 240 hour Learner's period is automatically disqualified for that piece of equipment and is automatically removed from the equipment list for that piece of equipment. Each Learner will be provided with a written assessment of their performance on the piece of classifying equipment at or prior to the end of 120 hours of the Learner's period, and again at or prior to the end of the 240 hour Learner's period. Unless they have received a letter of permanent

disqualification from the Department, employees who do not qualify for a particular piece of classifying equipment will be afforded the opportunity to sign up again to become a Learner on that piece of equipment every October 1st for a two week period.

If a Learner becomes qualified to the satisfaction of the Department on a particular piece of classifying equipment, such employee will be provided with a letter from the Department evidencing qualification on that piece of equipment. An employee, who becomes qualified on all the classifying pieces of equipment in any particular equipment grade as shown in the Classifying Equipment Chart above, will be eligible to next fill a vacancy so declared by the Department for permanent pay at that equipment grade. Otherwise employees qualified or not, will receive the higher pay rate for a particular piece of equipment only when they are assigned to operate it. In order to be eligible for Grade 3, an employee must first be qualified as Grade 2. In order to be eligible for Grade 4, an employee must first be qualified as Grade 2 and Grade 3.

7.4 Equipment Assignment

During regular hours, employees will be assigned to a piece of equipment based on the employee seniority equipment qualifying list for that particular piece of equipment when that equipment is utilized. However, the Union agrees that the Department may deviate from the order of the employee seniority equipment list in assigning personnel when the Department deems it necessary for efficiency or practicality once assignments have been made and the crews have embarked on their work for the shift. Employees assigned to equipment at levels below the grade they have achieved will not lose any pay as a result of such lower assignment.

New employees with the exception of employees at Grade 5 (Tradesmen) will be placed on all employee seniority equipment lists according to their seniority. However, employees possessing a valid commercial CDL A or B license will automatically be qualified on the dump truck and salt truck qualification lists. Employees possessing a valid commercial CDL-A license will automatically be qualified as Tractor-Trailer.

Anything herein to the contrary notwithstanding, the determination of which employees (sewer crew or non-sewer crew) are to be assigned or called in to perform the cleaning of catch basins and culverts prior to or during a storm shall be at the discretion of the Department.

In situations where the Sewer Crew personnel are split between jobs and one of the Sewer Crew members who is not the Sewer Crew Leader is given the responsibility of leading two or more personnel in accomplishing 'sewer work', such Sewer Crew member will be paid at the Sewer Crew Leader rate.

7.5 Lack of Work

In the event of lack of work in any equipment grade or grades, employees will be bumped down in direct accordance with the equipment classifying equipment list. Employees may also bump from any equipment classifying list to any equal or lower equipment classifying list in the same manner, but in reverse order (first in - last out), to the manner in which they moved up.

7.6 On-the-Job Training

It is understood and agreed that the Department may utilize up to fifty (50) person days each fiscal year for assigned on-the-job training. When such assigned training is occurring, it is recognized and agreed that anything herein to the contrary notwithstanding, normal assignments as called for in this contract, will be displaced regardless of seniority. Training assignments for Learners will be from the equipment qualifying list in the order their names are listed.

ARTICLE VIII - VACANCIES

- 8.1 When a vacancy is being filled, either permanently or temporarily, or a new job or position is established in a Department, then, the Department will post the position in house in all Departments of the City, and will consider qualified bargaining unit members first, in order of seniority. The Department may also simultaneously advertise outside. If the Department determines that there are no well qualified employees in the bargaining unit, the City may fill the position from outside the bargaining unit. The Department will choose the employee it determines to be the best qualified for the position.
- 8.2 If the City does not move to fill a vacancy, the City will, upon Union request, provide the Union in writing with its current thinking with respect to its plans for the position.

ARTICLE IX - PERSONNEL REDUCTION

- 9.1 When a position in any job classification is eliminated by the City due to a reduction in work force, the job of the employee with the least seniority shall be deemed to have been eliminated.
- 9.2 However, if the displaced employee has more seniority than another employee in the Department, the City shall assign that employee to another job which he/she is qualified to perform, taking into consideration his/her department seniority relative to other employees. No employee shall be laid off before all employees in the bargaining unit with less seniority are laid off.
- 9.3 As eliminated positions are re-established or new positions are created, laid-off employees shall be given first priority for placement in the inverse order of layoffs. A laid-off employee shall keep his/her seniority rights for twenty four (24) months after layoff or until re-employed in a regular unit position, whichever occurs first.
- 9.4 In the event that the City must make reductions in force, it agrees to make a reasonable effort to reassign affected personnel, if vacancies exist, elsewhere in City Departments.
- 9.5 In the event of Local #1444 members under this Contract are on layoff subject to recall, they will be given first consideration to fill any job openings in this Department which are covered under federal or state manpower programs or other similar programs.
- 9.6 No demotions of supervisory positions will be made into the bargaining unit during a layoff.

ARTICLE X - TEMPORARY EMPLOYEES

- 10.1 The Department may hire extra help at any time at the discretion of the City Manager as long as such help is placed at the bottom of the seniority list, except for temporary or seasonal part-time employees who shall obtain no rights and whose positions are not regular unit positions. In the event employees of this Department are on recall, they shall have first consideration to fill these openings before new employees are hired. If temporary employees are hired for full-time positions within 12 months of their temporary employment hiring date, then the period of temporary work shall count as part of the probationary period. Temporary employees may work up to 90 work days as temporary employees.

ARTICLE XI - TEMPORARY OR PERMANENT ASSIGNMENT

- 11.1 Employees temporarily assigned to lower-rated jobs/levels shall retain their regular rate of pay.
- 11.2 Employees temporarily or regularly assigned to higher-rated jobs shall receive the higher rate of pay; and, if an employee is so assigned for one hour, he/she shall receive the higher rate for all continuous hours worked in the work day. This does not apply to learners.

ARTICLE XII - WORK DAY AND WORK WEEK

- 12.1 In all Departments except Pollution Control, the work week shall commence at 7:00 a.m., Sunday morning and continue through to 7:00 a.m. the following Sunday morning. The work day shall commence at 7:00 a.m. and continue through 7:00 a.m. the following morning. A normal work day shall consist of eight (8) hours, commencing at 7:00 a.m. and ending at 3:00 p.m.

The normal work day in Public works and Recreation and Parks will be from 7:00 a.m. to 3:00 p.m. Public Works and Recreation and Parks employees shall be entitled to one daily break not to exceed 20 minutes, taken at the discretion of the foreman. Additionally, Public Works and Recreation and Parks will have a 20 minute, on site lunch period. Remedies of personal hygiene will not be authorized earlier than five minutes prior to the end of the shifts. Emergency situations are to be considered and monitored by management.

In Public works and Recreation and Parks, if an employee is required to work in excess of eight (8) continuous hours, he/she shall receive an additional twenty-minute break for each additional four (4) hours worked which shall be scheduled by the supervisor to be taken by the employee within a reasonable proximity of normal meal time. However, if the supervisor does not provide an opportunity for the employee to take the twenty-minute break, the employee will be paid for the twenty-minute period without actually taking it.

The normal work week shall commence at 7:00 a.m., Monday morning and continue through to Saturday evening for a total of forty (40) hours and be made up of five normal work days, as outlined above. The City also reserves the right to name other working hours to suit specific jobs or other irregular working conditions for all employees. This will give the City the right to schedule shifts and Sunday. When working shifts, workers will be given twenty (20) minutes to eat. The City also reserves the right to limit any or all employees to forty (40) hours straight time in any one working week. When employees are scheduled for shift work, they shall receive the following in addition to their regular rate, as per the effective year of the contract:

For the term of the contract the shift differential to be paid shall be:

3:00 - 11:00 p.m.	\$35/hr.
11:00 - 7:00 a.m.	\$40/hr.

Whenever employees are scheduled to work shifts, the schedule will be posted by twelve o'clock (12:00) noon on Friday at the appropriate place. This will be done whenever possible.

- 12.2 In Pollution Control, the normal work day will be 7:00 a.m. to 3 p.m. One twenty (20) minute morning break will be authorized at Pollution Control. Pollution Control will have a staggered 30 minute, on site lunch period. Remedies of personal hygiene will not be authorized earlier than ten minutes prior to the end of the shifts. Emergency situations are to be considered and monitored by

management. Any practice to the contrary notwithstanding, the workday does not end until the appointed hour.

- 12.3 The normal work week shall commence at 7:00 a.m. Monday morning and continue through Friday for a total forty (40) hours and made up of five normal work days, as outline above. The City also reserves the right to name other working hours to suit specific jobs or other irregular working conditions for all employees. This will give the City the right to schedule shifts and Sunday. When working shifts, workers will be given twenty (20) minutes to eat. The City also reserves the right to limit any or all employees to forty (40) hours straight time in any one working week. When employees for the duration of the contract are scheduled for shift work, they shall receive the following in addition to their regular rate per the effective year of the contract:

3:00 - 11:00 p.m.	.22/hr.
11:00 - 7:00 a.m.	.30/hr.

ARTICLE XIII - OVERTIME AND CALL-INS

All Departments Except Pollution Control

- 13.1 In case an employee is called in for work outside the normal workday, he/she shall be allowed a minimum of four (4) hours pay; but, if for any reason whatsoever he/she is required to work more than two and three-quarter hours straight time, then he/she will be paid at the regular rate of time and one-half for all hours worked. Employees who show a pattern of not being available or who show a pattern of not responding to call-in requests from Nov. 15-April 15, may be subject to disciplinary action. The preceding notwithstanding, employees who do not respond to an overtime call for any reason shall be assigned the number of paid hours accumulated by the employee who works in his/her place and shall, thus, not have priority for overtime call-in until his/her total of worked and charged overtime hours is less than the total for other employees in the Department.
- 13.2 All workers will receive time and one-half for all work performed over eight (8) hours in any one day which is not a Sunday or holiday and all over forty (40) hours in any one week, whichever is greater. Holiday pay will be as provided in Article XXII. All work on Sunday will be at time and one-half, except as provided in Article XXII, 22.1.
- 13.3 In addition, overtime shall be paid for all hours of overtime worked over twenty-four (24) hours of continuous work during an emergency when the hours of continuous work run into another day.
- 13.4 The City will make an honest effort to distribute the overtime work among the eligible employees as evenly and fairly as possible without impairing efficiency. All overtime work will be divided as equally as possible, in accordance with the employees' classification; and overtime will be posted weekly or more frequently if possible. Overtime hours shall be logged on one chart only. For the purpose of making overtime assignments, employees with overtime accruals within one (1) hour of each other shall be considered equal and one will not have more overtime call-in rights than another. It is further agreed that whenever the foreman knows ahead of time that a crew will be needed for overtime work, these employees shall be notified ahead of time.

If an employee holding a regular position is plowing through to the 7:00am shift, and the City cannot place him/her back on their regular position, they can continue through the day and a temporary replacement will perform their regular duties if deemed necessary by management. Otherwise, he/she will be required to do

their regular position work. All employees are expected to work overtime as required. In the event that insufficient numbers of employees report for overtime work, the least senior employee(s) on the overtime list shall be contacted again and required to work.

13.5 During the winter months, scheduled overtime work shall be posted on the bulletin board at the City Garage as soon as it becomes known. An overtime list shall be posted, containing the comparative numbers of overtime hours worked or charged to each employee and shall be brought to zero each October 1.

13.6 The Union and its individual members agree to accept any assignment delegated to them by the Supervisory Staff. In the event that any member or members of the Union are dissatisfied with the assignment delegated to them, they may follow the pertinent grievance procedures as outlined in this Contract. In the event a satisfactory adjustment is not arrived at, then, in that event, the aggrieved person must also continue to accept the assignment as allocated without further protest until the grievance procedures are completed.

13.7 Overtime Assignments

The following guidelines will normally apply when employees are assigned overtime by the Department:

Salt Trucks: Assign from list of qualified operators lowest in overtime.

General Plowing: Assign from list of qualified operators lowest in overtime.

Snow Removal: Assign from list of qualified operators lowest in overtime.

Pushing Snow: Assign from list of qualified operators lowest in overtime.

Sewer Calls: Assign Sewer Crew Leader and one or two regular positions, as determined necessary for the assignment by the Supervisor. Regular positions shall be called in in order from lowest to highest in overtime. If more positions are needed they will be called in from the sewer crew list in order from lowest to highest in overtime.*

*Sewer Crew: When there is overtime, the Sewer Crew (i.e. Foreman and two regular positions) has first opportunity to refuse. Then call in low in overtime from sewer crew list.

Mechanics: Assign low Mechanic on overtime.

Cemeteries: If work is required in a cemetery and the Cemetery Operator is not available, a qualified backhoe operator will be called into locate and dig the grave along with a laborer. If a backhoe operator can safely be used for the work, that qualified backhoe operator will operate it.

For all other overtime assignments: Assign from the list of qualified operators lowest in overtime. If none are available, assign from the Learner's list based on seniority. However, the Department retains the right and discretion to assign the most qualified Learner in situations where the Department deems that appropriate.

13.8 When overtime is assigned, reasonable effort will be made to assign the highest graded pieces of

equipment first, recognizing that such may not always be possible. Once assigned to pieces of equipment on overtime, no bumping based on seniority will occur.

- 13.9 All employees who work 40 hours per week shall have the option to receive compensatory time in lieu of overtime pay at the rate of 1.5 hours for each hour worked over 40 hours. Compensatory time may be accumulated up to a maximum of forty (40) hours and must be taken at a minimum of one (1) hour increments. Time used shall be at the employee's discretion with advance approval of the supervisor. In no case will a compensatory time request be granted if it results in more than one pollution control or one P&R employee being out at one time. In the case of the remaining PWD employees, compensatory time off will not be granted at any time that 15% or more of these members are scheduled to be off. All compensatory time must be taken within the same calendar year in which it was accrued. Compensatory time not used at the end of the calendar year will be paid at the employee's current rate. Accumulated Compensatory time existing as of the signing of this contract must be brought within the limits laid out in this paragraph within 60 calendar days or it will be paid. Employees must comply with City time-keeping requirements.

In Pollution Control, if the assigned call in employee is not available, call in work will be assigned to the least senior, qualified person, on a rotation basis.

- 13.10 In case a Pollution Control employee is called in for work outside the normal workday, he/she shall be allowed a minimum of four (4) hours pay; but if for any reason whatsoever, he/she is required to work more than two and three quarters hours straight time, then he/she will be paid at the rate of time and one-half for all hours worked. Employees, who are placed on call in Pollution Control, will be subject to disciplinary action if they are not available or do not respond to call-in requests.

ARTICLE XIV - CLOTHING AND SAFETY

- 14.1 The City and the Union shall cooperate fully in matters of safety, health and sanitation affecting the employees. The Public Works shall furnish rubber gloves for all work on sewer and rubbish and foul weather clothing when needed. Locker spaces will be provided by the City.
- 14.2 Employees shall not be required to work under conditions of immediate danger to safety and health. No employee shall be discharged or disciplined for refusing to work on a job which he/she has good reason to believe is immediately dangerous to life and limb. He/she shall immediately notify the immediate supervisor of such condition and the immediate danger. If the matter is not resolved by the immediate supervisor and employee, the immediate supervisor will contact the safety committee representative who shall assist in reviewing the matter.
- 14.3 The City will reimburse the cost up to \$400 of approved work clothing including safety shoes and coveralls, with proof of purchase, once a year for all bargaining unit employees. Employees may choose to take the entire \$400.00 in lump sum. Effective July 1, 2014, the \$400.00 amount will increase to \$450.00. All approved footwear and clothing must be worn at all times while the employee is in the employ of the City whether they use the footwear reimbursement or not. In the event that an employee does not wear the approved footwear while on the job except for classroom training, negotiations and the discretion of Management, they shall be subject to the disciplinary procedures of the contract except that the first warning shall start with a written warning and proceed according to the contract disciplinary procedures.

- 14.4 Reimbursement for clothing allowance including safety shoes will require that all receipts of purchase be submitted to the Department. Pollution Control will also continue to provide on site equipment to clean work-related clothing.

ARTICLE XV - PAID SICK LEAVE

- 15.1 The City will provide paid sick leave which will accumulate at the rate of one day per month to a maximum of 80 days.

Any covered employees having a higher rate of paid sick leave prior to 7/1/95 shall retain this higher rate of sick leave. Any employee utilizing City provided sick leave may be required by the Department Head at any time to produce a doctor's slip verifying in writing the illness of the employee which prevents he/she from working.

An employee shall not be entitled to paid sick leave if he/she is injured or becomes ill as a result of work for an employer other than the City.

- 15.2 In the event of the death of an employee during the time while he/she is still an active employee of the City, the entire amount of his/her accumulative sick leave will be paid to his/her designated beneficiary.

- 15.3 In no event shall any employee receive more than one hundred percent (100%) of his/her regular straight-time pay for illness or disability. Only one benefit can be applied at a time. The City shall permit the employee on sickness or disability leave to supplement up to 100% of their regular weekly wage, by using the balance of their sick leave and vacation leave.
