

Mayor Paul Grenier

City of Berlin

1/15/15

I am writing this letter to express my interest to purchase a partial of land the City of Berlin owns. This partial is currently part of the airport property located in the Town of Milan. I have been interested in the property for many years, but never thought the land would be on the market. Only recently having heard a rumor that another organization may also be looking to acquire it, for the purpose of timber harvesting, have I regained my interest in the lot.

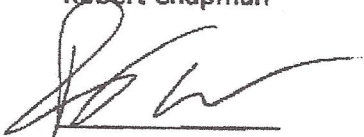

Along with this letter, I have included a copy of the tax map with the lot in question. The dashed line represents the possible subdivision lot boundary that could be made. The new boundary line would be somewhere in the vicinity of the existing airfield fence line. Early estimates of the subdivided partial put it somewhere in the three hundred acre range. Having been an abutter to the airport for many years, my family and I, Especially my children, have grown to enjoy the airfield, the children love to watch the planes coming and going. My intention for the property is to build a home in the center of the property overlooking the airfield, and the town, that can be passed down through my family for generations to come so others may enjoy.

What I would like to know, first and foremost. Is if the city is interested is selling the property? Also if such a sale was entertained, what the purchase price may look like?

I want to thank you for your consideration in this matter and I will look forward to hearing from you.

Sincerely

Robert Chapman
