

To Mayor Grenier and City Council,

I am writing to ask to have the no parking removed from Moreau St. There are no actual addresses on the street, it was originally put in so the delivery truck did not need to go up Elm St. In the winter to get to Elm Steet market which has been closed for many years now. When my father Michael Perreault owned the house he had the no parking sign removed. We have gone over 30 years with parking on the street and had no issues. With no parking on the street we can no longer park on the side of my own property. Which is where the main entrance and garage is. During winter months vehicles only park for mainly unloading groceries or someone getting picked. The street is mainly access to driveways of the 77 and 83 Elm St and 90 and 98 Spruce St. This would be greatly appreciated.
