

**\*\* FOR THE RECORD \*\***

FROM: Stuart Light, 213 High St, Berlin

Councillors:

If you want to **\*RECOMMEND\*** masking: By all means, lay out your reasoning and make your case. More information is always a good thing, so that each member of the public can decide for themselves -- which they will do in any case.

If you want to **\*MANDATE\*** masking: You had better cite -- individually and on the record -- not only why you think that's a good idea, but also **EXACTLY** where and how We The People delegated to you the authority to do any such thing. Absent such delegation, **ANY** imposition on the public (mask-related or otherwise) is attempted tyranny -- and will be viewed and treated as such.
