Re: Ten-Year Plan Discussion

---

Applications for projects to be added to the NHDOT Ten-Year Plan are due to North Country Council in November. Staff has a working list of potential projects for consideration and would like to discuss the prioritization of this list with the Council.

These are what we have been considering:

1. Rte. 110 Urban Compact Project
2. Hutchins St./Bridge Street Intersection Project
3. Cleveland Bridge to Phase I Rte. 110 – intersection of Pleasant & Green Street
4. Downtown - in conjunction with the snowmelt project depending on the outcome of the feasibility study currently underway

We would like to get your feedback Monday evening so we can work on preparing an application to get a project in the list now that our major road projects that we have been focusing on are completed.

Thank you.
