

Memo

To: Berlin City Council
From: Jim Wheeler, City Manager
Date: September 10, 2018
Re: Sewer Extension Request – Research in Consideration of Goddard Request

At the Council's request I have been able to research the last three, past sewer extension related cases that we can recall. Following is a summary:

Bemis St. – Caron Property

This new home required an approximately 100' extension. The City provided 100' of pipe and a manhole toward the expense of the extension.

Hill St. – Landry Property

It does not appear that this new home required an extension of the public sewer as the public line runs close to the end of Hill St. Because the new home was constructed approximately 475' off the end of the street, it appears the homeowner installed a septic system.

Haskell St. – Nelson Property

This new home required an approximately 100' to 120' extension. The City provided 100' of pipe and a manhole toward the expense of the extension.
