This application does not imply approval of the proposed work. The applicant shall be responsible for confirming final approval of the proposed work prior to starting any work which requires a permit from the Inspection Division. All work shall be in compliance with NFPA standards, State and Local Regulations. The applicant shall be responsible for scheduling final tests and inspections for any work performed immediately upon completion. The Inspection Division must also approve any changes to the previously approved conditions. Failure to provide the requested information will result in denial of the permit. All sections must be completed.
