ATHLETIC PROGRAMS	<p>Craig Melanson gave the Board an overview of the BHS Athletic Program explaining the reasons for the shortfall of monies to keep the payment of officials self-sufficient from the local budget. He informed the Board that the athletic department will be pro-active and is looking into different options to cover the costs of officials for upcoming years. One option is to recruit more athletes at the high school level. The administration will be conducting a student survey to find out why some students stop playing sports in high school. User Fees will also be looked at with the option of raising it from \$60.00 to \$65.00 and to charge all NHIAA participants this fee, including Unified Basketball.</p>												

The issue of School Logos was also discussed. Craig explained that each logo used by the different sports at the high school has a history and that most of them were chosen by the students. Scott Losier stated that he would like all of the teams to have the same Logo that would make Berlin stand out. He favors the "B" over the "M" to identify Berlin rather than the Mountaineers. Discussion ensued. Nicole Plourde respects Scott's idea but she personally likes the idea of the different logos and their history.

LEGISLATIVE UPDATES Discussion ensued regarding the legislative updates recently passed by the NH Legislation. They included:

SB 101: Which changes the high school attendance requirement for enrolling in a career and technical education program from 2 years to 1 year. Kevin Carpenter informed the Board that the high school will need to look into how their CTE programs and student enrollment in the programs is being implemented. He stated it will not affect them this school year, since all the scheduling for the 2017-2018 school year has been completed.

HB 216: Provides that no pupil in kindergarten through grade 2 shall be expelled from a public school and establishes circumstances under which a student in kindergarten through grade 2 can be suspended. Amy Huter informed the Board that she currently adheres to this ruling.

HB 226: Amends the statewide assessment program goals for third grade pupils, Julie King informed the Board that they adhere to this ruling as well. She will need more information on the requirement to present the necessary documentation to the state

HB 233: Requires each school to submit its emergency response plan and any updates to the plan to the department of education. The principals informed the Board that this is currently done as a district and that due to this ruling each principal will be required to submit their own emergency response plan.

HB 356: Increase the base per pupil cost of an adequate education.
